Cell-surface expression of a new splice variant of the mouse signal peptide peptidase
J. Urny, I. Hermans-Borgmeyer and H.C. Schaller 159

Promoter papers

Transcriptional regulation of mouse mast cell protease-7 by TGF-β
M. Funaba, T. Ikeda, M. Murakami, K. Ogawa, Y. Nishino, K. Tsuchida, H. Sugino and M. Abe 166
Transcription promoter activity of the human S100A7 gene in oral squamous cell carcinoma cell lines
H. Fukuzawa, T. Kiyoshima, I. Kobayashi, S. Ozeki and H. Sakai 171
Protein–DNA interactions in the promoter region of the gene encoding diapause hormone and pheromone biosynthesis activating neuropeptide of the cotton bollworm, *Helicoverpa armigera*
B. Hong, Z.-F. Zhang, S.-M. Tang, Y.-Z. Yi, T.-Y. Zhang and W.-H. Xu 177

Short sequence papers

A novel member of the NSF family in the corn earworm, *Helicoverpa zea*: Molecular cloning, developmental expression, and tissue distribution
W.-H. Xu, Q.-R. Zhang and D.L. Denlinger 186
Molecular characterization of a bHLH transcription factor involved in *Arabidopsis* abscisic acid-mediated response
J. Kim and H.-Y. Kim 191

Regular papers

Molecular properties and intracellular localization of rat liver nuclear scaffold protein P130
Y. Hibino, T. Usui, Y. Morita, N. Hirose, M. Okazaki, N. Sugano and K. Hiraga 195
Characterization of human cytoglobin gene promoter region
X. Guo, S. Philipsen and K.-C. Tan-Un 208
A novel *Xenopus laevis* larval keratin gene, *xlk2*: Its gene structure and expression during regeneration and metamorphosis of limb and tail
I. Tazawa, K. Shimizu-Nishikawa and K. Yoshizato 216
Identification and expression of a new splicing variant of FAD-sulfhydryl oxidase in adult rat brain
J. Radom, D. Colin, F. Thiebault, M. Dognin-Bergeret, G. Mairet-Coello, A. Esnard-Feve, D. Fellmann and M. Jouvenot 225
Characterization of the MCT-1 pseudogene: Identification and implication of its location in a highly amplified region of chromosome 20
S. Nandi, B. Shi, J. Perreault and R.B. Gartenhaus 234

Promoter papers

Partial characterization of the mouse α-sarcoglycan promoter and its responsiveness to MyoD
P. Delgado-Olguín, F. Recillas-Targa, H. Rosas-Vargas, F. Salamanca and R.M. Coral-Vázquez 240
The role of Sp1 and Sp3 in the constitutive *DPYD* gene expression
X. Zhang, L. Li, J. Fourie, J.R. Davie, V. Guarcello and R.B. Diasio 247
Promoter characterization and transcriptional regulation of Ncb5or, a novel reductase necessary for pancreatic β-cell maintenance
K. Larade and H.F. Bunn 257

Regular papers

Cloning and functional analysis of the novel gene *GhDBP3* encoding a DRE-binding transcription factor from *Gossypium hirsutum*
B. Huang and J.-Y. Liu 263
Genomic organization and expression of the human mono-ADP-ribosyltransferase ART3 gene
M. Friedrich, A. Grahnert, C. Klein, K. Tschöp, K. Engeland and S. Hauschildt 270
The Rab11-FIP1/RCP gene codes for multiple protein transcripts related to the plasma membrane recycling system
M. Jin and J.R. Goldenring 281
Involvement of LuxR, a quorum sensing regulator in *Vibrio harveyi*, in the promotion of metabolic genes: *argA*, *purM*, *lysE* and *rluA*
C.M. Miyamoto and E.A. Meighen 296
Directed evolution of plant basic helix–loop–helix transcription factors for the improvement of transactivational properties
S. Pattanaik, C.H. Xie, Q. Kong, K.A. Shen and L. Yuan 308

Review

Biological microarray interpretation: The rules of engagement
R. Breitling 319

Regular papers

Molecular cloning and functional expression of the *Penaeus monodon* 5-HT receptor
C. Ongvarrasopone, Y. Roshorm, S. Somyong, C. Pothiratana, S. Petchdee, J. Tangkhabuanbutra S. Sophasan and S. Panyim 328
Upregulation of human angiotensinogen (AGT) gene transcription by interferon–gamma: Involvement of the STAT1-binding motif in the AGT promoter
S. Jain, M. Shah, Y. Li, G. Vinukonda, P.B. Sehgal and A. Kumar 340

Human GM_3 synthase: A new mRNA variant encodes an NH_2-terminal extended form of the protein
P. Berselli, S. Zava, E. Sottocornola, S. Milani, B. Berra and I. Colombo 348
Drosophila distal-less negatively regulates dDREF by inhibiting its DNA binding activity
Y. Hayashi, M. Kato, H. Seto and M. Yamaguchi 359

Promoter paper

The characterisation of the human Wolfram syndrome gene promoter demonstrating regulation by Sp1 and Sp3 transcription factors
C. Ricketts, M. Zatyka and T. Barrett 367

Short sequence paper

Porcine *APP* cDNAs: Molecular cloning and characterization, expression analysis, chromosomal localization and SNP analysis
M.A. Oerum, C. Bendixen, L.B. Madsen and K. Larsen 378

Discussion

Review

Influences along the path to maturity: Regulation of cellular levels of RNA
M.C. Barton 385

Regular paper

Genome-wide analyses show that nuclear and cytoplasmic RNA levels are differentially affected by dioxin
J.A. Schwanekamp, M.A. Sartor, S. Karyala, D. Halbleib, M. Medvedovic and C.R. Tomlinson 388

Regular papers

Cofactor CLIM2 promotes the repressive action of LIM homeodomain transcription factor Lhx2 in the expression of porcine pituitary glycoprotein hormone α subunit gene
T. Susa, T. Sato, T. Ono, T. Kato and Y. Kato 403
Targeted disruption of the genes, *mlcR* and *ariB*, which encode GAL4-type proteins in *Penicillium citrinum*
S. Baba, Y. Abe, C. Ono and M. Hosobuchi 410
Hyper-activated IRF-1 and STAT1 contribute to enhanced Interferon stimulated gene (ISG) expression by Interferon α and γ co-treatment in human hepatoma cells
X.-N. Zhang, J.-X. Liu, Y.-W. Hu, H. Chen and Z.-H. Yuan 417

Promoter paper

HNF4α and NF-E2 are key transcriptional regulators of the murine *Abcc6* gene expression
V. Douet, C.M. VanWart, M.B. Heller, S. Reinhard and O. Le Saux 426

Short sequence paper

New type of *kdp* region with a split sensor-kinase *kdpD* gene located within two divergent *kdp* operons from the thermoacidophilic bacterium *Alicyclobacillus acidocaldarius*
E. Schleußinger, R. Schmid and E.P. Bakker 437

Regular papers

Characterization of the rabbit *HKα2* gene promoter
D.L. Zies, M.L. Gumz, C.S. Wingo and B.D. Cain 443
Transcriptional regulation of the human Sia-alpha2,3-Gal-beta1,4-GlcNAc-R:alpha2,8-sialyltransferase (hST8Sia III) by retinoic acid in human glioblastoma tumor cell line
S.-J. Kim, H.-J. Choi, U.-H. Jin, Y.-C. Lee and C.-H. Kim 451
Both the basal transcriptional activity of the *GADD45A* gene and its enhancement after ionizing irradiation are mediated by AP-1 element
K. Daino, S. Ichimura and M. Nenoi 458
Spermidine/Spermine N^1-Acetyltransferase 2 (SSAT2) functions as a coactivator for NF-κB and cooperates with CBP and P/CAF to enhance NF-κB-dependent transcription
N.L. Vogel, M. Boeke and B.P. Ashburner 470

Promoter papers

Common mechanisms regulating expression of rice aleurone genes that contribute to the primary response for gibberellin
K. Washio and M. Morikawa 478
The human Cx40 promoter polymorphism −44G→A differentially affects transcriptional regulation by Sp1 and GATA4
M. Firouzi, M.F.A. Bierhuizen, B. Kok, B.E.J. Teunissen, A.T. Jansen, H.J. Jongsma and W.A. Groenewegen 491
Potential regulatory elements in the *Trypanosoma cruzi* rRNA gene promoter
E. Figueroa-Angulo, A. María Cevallos, A. Zentella, I. López-Villaseñor and R. Hernández 497

Review

Regulation of Smad activities
L. Xu 503

Regular papers

Molecular cloning and characterization of *human Aph2* gene, involved in AP-1 regulation by interaction with JAB1
F. Zhang, Y. Di, J. Li, Y. Shi, L. Zhang, C. Wang, X. He, Y. Liu, D. Wan, K. Huo and J. Gu 514

Pf-ALMP, a novel astacin-like metalloproteinase with cysteine arrays, is abundant in hemocytes of pearl oyster *Pinctada fucata*
X. Xiong, L. Chen, Y. Li, L. Xie and R. Zhang 526

mRNA made during heat shock enters the first round of translation
L. Marín-Vinader, S.T. van Genesen and N.H. Lubsen 535

Identification and characterization of genes associated with the induction of embryogenic competence in leaf-protoplast-derived alfalfa cells
M. Domoki, J. Györgyey, J. Bíró, T.P. Pasternak, Á. Zvara, S. Bottka, L.G. Puskás, D. Dudits and A. Fehér 543

Identification of hnRNPs K, L and A2/B1 as candidate proteins involved in the nutritional regulation of mRNA splicing
B.N. Griffith, C.M. Walsh, W. Szeszel-Fedorowicz, A.T. Timperman and L.M. Salati 552

Dusty protein kinases: Primary structure, gene evolution, tissue specific expression and unique features of the catalytic domain
J. Peng, W. Dong, Y. Chen, R. Mo, J.-F. Cheng, C.-c. Hui, N. Mohandas and C.-H. Huang 562

Promoter paper

The Sp family of transcription factors regulates the human laminin α1 gene in JAR choriocarcinoma cells
T. Niimi, Y. Hayashi, K. Sekiguchi and Y. Kitagawa 573

Cumulative Contents 580
